

### **Investors in People Consultancy**

TSW provide a comprehensive advisory service, depending on the needs of the organisation, which can encompass:- the diagnostic activity, action planning, briefing session with the management team and employees, support the implementation process, evaluation against the standard, and the preparation for assessment.

Being experienced Investors in People advisers; we can provide sound recommendations for the adoption and implementation of the necessary processes, procedures and systems that would support the achievement of Investors in People status within your organisation. We will hold comprehensive discussions with the organisation's nominated Investors in People project manager on the necessity of such action and the best strategy for proceeding.

If you have internal Investors in People expertise we can offer advice, support and guidance to help you achieve the investors in people standard. But for those who do not have the internal resources, we can go further and work with you to do the diagnostic work and produce Investors in People action plan.
