

IRCA ISO 9000 Quality Auditor/Lead Auditor (A17059)

5 Day Programme in Association with certified course holder Managing for Quality Ltd

Aims and Objectives

This course is designed to provide trained auditors who can already apply audit methodology and techniques plus manage and lead an audit team effectively.

The focus of the course is to train participants in auditing for compliance against ISO 9001 and against documented systems, it is important that auditors are able to evaluate systems effectiveness and to identify potential improvements. The unique structure of our audit case studies, which allow 'live' auditing, facilitates the development of the skills needed to identify potential system improvements.

Successful completion of the course will only satisfy the training element of any IRCA auditor certification scheme.

Programme Benefits:

The Training focuses on the key elements of ISO 9001: 2000, including process management, measurements and improvement.

- Training is highly practical and interactive.
- We use 'live' audit sessions, not written case studies.
- The course is non-technical and is suitable for people from all backgrounds.
- Comprehensive notes package for each participant.
- Experienced and practicing IRCA registered Lead Auditors.
- We train auditors to contribute effectively to systems.
